

## JET-3 Centrifugal Blower

The JET-3 is ideal for air knife drying, vacuum, fluidized bed and aeration applications. The JET-3 is the most powerful centrifugal blower in its class.

### Benefits

- Compact, rugged design
- Lightweight construction
- High speed, high flow rate
- Direct drive technology
- Efficient power utilization
- VFD control to dial-in exact flow rate requirements
- 20% more efficient than belt drive blowers
- 150" water gauge @ 1200 CFM
- Complete with 1 year warranty

### Why Buy From US

The JET-3 is only available in Canada from STANMECH and its distributor network. The JET-3 is ideal for those applications requiring an efficient, cost effective high flow rate air source.

### Technical Data – JET-3 Centrifugal Blower

Voltage	V	190 - 600
Hertz	Hz	50/60
Horsepower	HP	5, 7.5, 10, 15, 20, 25, 30, 40, 50
Weight	Lbs.	92
Inlet	Inches	4
Outlet	Inches	4
