

COMET Wedge Welder

The world's smallest fully integrated hot-wedge welding machine weighing in at only 7.5 kg, designed specifically for civil engineering applications.

Benefits

- Rugged construction designed for field use
- Optional data recording on memory card possible
- Stepless control of temperature and speed
- Digital display of temperature and speed
- Exceptional welding performance including both speed and weld quality
- Sophisticated drive technology, designed to meet the most stringent demands
- User friendly

Why Buy From Us

The COMET wedge welder, available in Canada only through STANMECH and its distributor network, provides excellent performance in a compact overall package.
