

ELECTRON Hot Air Tool

The Electron provides high heat efficiency and large air volume in a compact size.

Benefits

- Ideal for heating, shrinking, bending, drying, sterilizing, igniting, thawing, forming and welding plastics
- Activates adhesives such as contact cements for counter top laminating
- Temperature electronically adjustable from 20 to 650 °C
- Manual air slide provides adjustable air flow up to 500 l/min
- Built in commutator brush stops extend motor life and minimize repair costs
- Excellent combination of heat performance and air volume when compared to the size of the hot air tool

Why Buy From Us

The Electron is available in Canada only through STANMECH and its distributor network and offers an excellent combination of heat performance and airflow in a compact package.

Technical Data - Electron

Voltage	V~	120, 230
Power consumption	W	2700, 2300 / 3400
Amperage	A	22.5, 10, 15
Frequency	Hz	50 / 60
Temperature	°C	20 - 650 steplessly controlled
Air flow	l / min.	max. 500, manual air slide
Pressure stat.	Pa	ca. 3000 (30 mbar),
Emission level	dB	65
Size	mm	320 x 95, handle ø 64
Weight	kg	1.5 with 3 m cord
