

LASER OPTIONAL COMPONENTS**GLOBO head**

Integrated optic and clamping system
Glass sphere on air bearing
Pneumatic clamping device
Laser power up to 120 W

Optics

A range of focal lengths
Integratable camera
Pyrometric upgrade available

Pyrometer

Process monitoring and control,
linked to the laser control unit
Measuring frequency 1 kHz
Temperature range 160° to 450 °C

Scanner

Scanner head with direct connection
or fiber coupled
Laser power up to 120 W
Processing field up to 110 x 110 mm

Optical fiber

Various lengths starting at 3 m
Robot version available Suitable for industrial applications
