

TOOL 10000

The **TOOL 10000** is suitable for building into machinery, in heat tunnels and other applications where higher heating power & temperature control is required.

Benefits

- Robust, industrial design
- Suitable for continuous use
- Adjustable air flow and temperature control
- Built-in safety features guard against overheating
- The heating element is protected against the interruption of the air supply
- Designed to be used with the our complete line of Leister blowers
- Precise delivery of hot air
- High process reliability
- Precise temperature control is possible by using our temperature controllers
- Compatible with a wide range of nozzles and fittings

Why Buy From Us

The **TOOL 10000** is available only through **STANMECH** and its distributor network.

These robust tools are designed specifically for machine installation.

Technical Data – TOOL 10000

Voltage (3 phase)	V~	230, 230, 230, 380-440, 480
Power consumption	kW	5.5, 8, 10, 10-13.5, 16
Frequency	Hz	50 / 60
Max. temp.	°C	650
Min. air flow	l/min	500, 700, 1000, 1500, 1750
Size (L x W x H)	mm	308 x 135 x 144
Heater tube	mm	92 Ø
Weight	kg	3.4
