

## VARIMAT V2 Automatic Welder

The VARIMAT V2 welds roofing membrane with astonishing speed. Leister »e-Drive« technology makes it easy to use, and its patented pressure roller design compensates for slight unevenness in the welding surface.

- Wrinkle free welding of all thermoplastic roofing materials including: PVC-P, ECB, EPDM, CSPE, and TPO
- Newly designed welding nozzle for reliable high speed welding
- New drive design allows welding speeds of up to 8 m/min, depending on conditions
- Ability to recall and store pre-set and custom welding profiles
- Slim design allows welding as close as 110 mm to parapets
- High performance, maintenance-free, brushless blower motor
- Both height and angle of guide handle is adjustable
- Optional TPO grip nozzle eliminates the need for cleaning before welding
